

SAFEGUARD

PASCAL® SERVICE CONTRACT

Protect your investment.

Topcon Medical Laser Systems offers a SafeGuard Laser Service Contract that provides protection for your investment.

Service Contract Features

Topcon Medical Laser Systems (TMLS) SafeGuard Service Contract offers benefits to ensure that you receive dependable repair and service should the need arise.

- Technical Support
- Repair parts/labor covered
- On-site service

Topcon Medical Laser Systems (TMLS) Service Contracts are available in a 12-month term:

Basic Silver	Laser coverage (Excludes: LIO and Preventative Maintenance)	\$8,200
Premium Silver	Laser coverage with LIO	\$8,700
Basic Gold	Laser coverage with Preventative Maintenance (Qty 1)	\$10,700
Premium Gold	Laser coverage with LIO and Preventative Maintenance (Qty 1)	\$11,200

Additional Options

Topcon Medical Laser Systems offers LIO and preventative maintenance options to the SafeGuard Service Contract. You can add these options to the service contract to maximize system uptime and prevent unforeseen workflow interruptions before they occur.

Preventative maintenance service includes:

- Inspect, clean and align slit lamp and laser optics
- Ensure system components are free of dust and contamination
- Perform calibration on treatment and aim beam power
- Measure and optimize power out of each individual fiber
- Perform virus scan on the hard drive (excludes Synthesis)
- If the LIO option is included in your service contract, the following services are provided:
 - LIO will be cleaned and checked for power calibration
 - Ensure both Port 1 and 2 are aligned properly
 - Check functionality of the illumination and dichroic mirror controls
 - Ensure wall charger operates as expected
